

TN 40 SERIES SPECIFICATIONS

In addition to having the same trouble-free design features as other TN Series pumps, the TN40 Series pumps offer higher volume and head capabilities than the TN30 Series. Discharge diameter and maximum viscosity for each pump are listed below. Most pumps available as a Pump/Tank combination. See pages 24 thru 28 or consult factory.

TN40: 1/2 HP, 1725 RPM, 1" NPT vertical discharge.
Maximum viscosity: 500 SSU.

TN40H: 2 HP, 3450 RPM, 1 3/4" NPT vertical discharge.
Maximum viscosity: 500 SSU.

TN50 SERIES SPECIFICATIONS

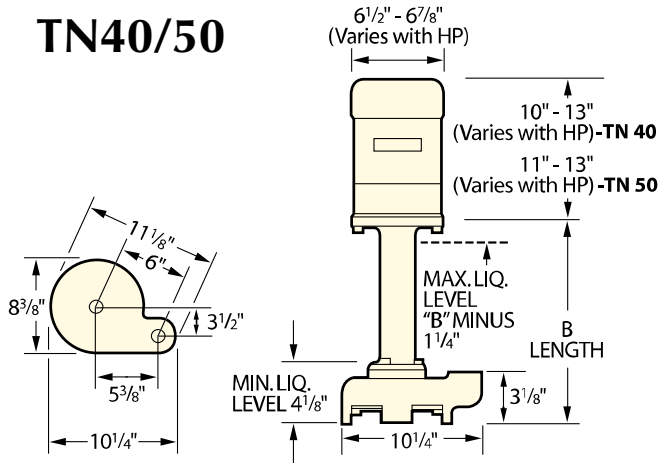

The TN50 Series generates approximately 30% more volume than TN40 Series pumps. Discharge diameter and maximum viscosity for each pump are listed below. Most pumps available as a Pump/Tank combination. See pages 24 thru 28 or consult factory.

TN50: 3/4 HP, 1725 RPM, 1 1/4" NPT vertical discharge.
Maximum viscosity: 500 SSU.

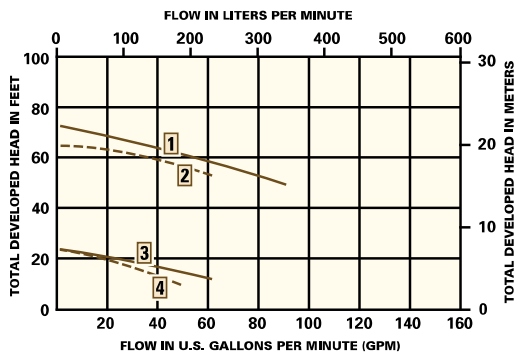

TN50H: 3 HP, 3450 RPM, 1 1/2" NPT vertical discharge.
Maximum viscosity: 500 SSU.

TN50HH: The TN50HH has the same specifications as the TN50H, but with a larger diameter impeller to produce higher pressure.

TN40/50

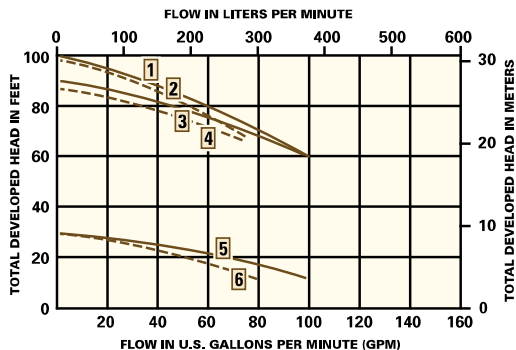

TN40

1. TN40H water
2. TN40H 300 SSU oil
3. TN40 water
4. TN40 300 SSU oil

TN50

1. TN50HH water
2. TN50HH 300 SSU oil
3. TN50H water
4. TN50H 300 SSU oil
5. TN50 3/4 HP water
6. TN50 3/4 HP 300SSU oil

TN40 ORDER INFORMATION

B LENGTH	MODEL	HP	VOLTAGE SUFFIX
7 7/8"	TN41	1/2	E, F, Z, GAMC
10 3/8"	TN43	1/2	E, F, Z, GAMC
12 7/8"	TN46	1/2	E, F, Z, GAMC
14 1/4"	TN47	1/2	E, F, Z, GAMC
16 3/8"	TN48	1/2	E, F, Z, GAMC
23 5/8"	TNW424	1/2	F
35 5/8"	TNW436	1/2	F
